

# Aspire

GEARING OUR CHILDREN  
FOR SUCCESS

## The Aspire Program

**Autism Partnership is a worldwide agency that works closely with individuals with a diagnosis of ASD, their families, teachers and professionals in the medical field and special education.**

We have offices and support services all over the world, and in Manila we provide early intervention at our Tomas Morato office and current newest development the **“Aspire Program: Gearing Children for Success”**.

Our expertise is utilizing the scientifically proven methodology of teaching: **Applied Behavior Analysis**. With our expert team and caregivers, we create all rounded and balanced programs to meet individual needs. We don't just teach what is needed 'now' but what is needed 'in the future'.

With our extensive knowledge and experiences running support services, classrooms and schools, we are extending our services to older teenage students up to 18 years old.

# The Aspire Program's mission and vision is to gear students for success by:

- ✓ Ensuring their rights to learn skills at their pace.
- ✓ Ensuring their rights to have an Individualized Education Plan plus tailor-made lessons and programs that enhance their learning and skill acquisition of applicable skills which lead to greater independence and self-esteem.
- ✓ Ensuring our student's programs are monitored, progress is continuously evaluated and that we are committing to the Individualized Education Plan objectives set.
- ✓ Ensuring parents and caregivers have open communication and access to our staff and consultant with regular meetings.
- ✓ Ensuring our students have access to a balanced curriculum which delivers guidance, knowledge building, and experiences in:

- Academics
- Behavior and emotional regulation
- Language and communication
- Social skills
- Executive functioning
- Independence in problem solving
- Self management
- Accessing the community and skills for developing hobbies
- Passion and vocational experiences

Gearing for success means not missing out on opportunities due to deficits in skills or emotional regulation and behavior.

## Quick Facts About the Aspire Program

It is for students aged 7 to 18 years old.

It is an English speaking program.

**1:2**

Operates on a 1:1 and 1:2 staff to student ratio.

Clinical support is provided from local supervisors and overseas BCBA registered consultants from Hong Kong.

Lessons are flexibly adapted to meet individual needs with 1:1 support and group learning sessions throughout the day.

**Our Program runs from Monday to Friday, from 8:30-3:00pm, with no term break.**

We welcome visitors and individuals to meet with us if you require any further information.

# Autism Partnership PHILIPPINES

Autism Partnership Philippines officially opened its doors in March 2015 at Quezon City, Manila. It is the first office in the Philippines among others in Asia including Hong Kong, Singapore and Korea. AP Philippines is currently one of the most established and promising centers offering professional ABA therapy services to families for the treatment of individuals with Autism. Our consultants provide assistance and training workshops to families, schools, organizations and related agencies locally and worldwide including Malaysia, Indonesia, Vietnam, China and Kuwait.
