

AUTISM PARTNERSHIP

Autism Partnership (AP) is a leading international agency that provides progressive Applied Behavior Analysis (ABA) services for Autism Spectrum Disorders (ASD). Formed in 1994 in the United States, AP is run by professional clinicians and specializes in providing highly individualized one-on-one and group intervention. Drawing on over 50 years of experience in ABA and the treatment of ASD, our premium services are highly recognized by local and international service agencies and government bodies. We provide consultation services to families and agencies throughout the world.

Autism Partnership now employs more than 500 professionals worldwide. AP has its headquarters in Los Angeles and has offices in Canada, United Kingdom, Australia, Hong Kong, Singapore, Manila, Korea and Kuwait.

Autism Partnership Philippines officially opened its doors in March 2015 at Quezon City, Manila. AP Philippines is currently one of the most established and promising centers offering professional ABA therapy services to families for the treatment of individuals with autism. Our consultants provide assistance and training workshops to families, schools, organizations and related agencies locally and worldwide including Malaysia, Indonesia, Vietnam, China and Kuwait.

Overseas Senior Therapist Program

**ABA
Specialized
Treatment**

One-on-one Intensive ABA Therapy

Our intensive and progressive Applied Behavior Analysis (ABA) treatment is a specialized approach to education. It is a very active teaching and learning process that is driven by outcomes.

Teaching is individually tailored to each child and in the beginning stages rely heavily on one-on-one therapy. The focus includes communication, cognitive, play, social, self-help and other functional skills.

The number of direct intervention hours provided to a child is 30 hours or more per week.

Sessions are conducted 6 hours a day, Monday to Friday. Treatment duration typically lasts more than 2 years.

What does the program include?

One therapist to one child

Tailor-made curriculum according to the assessed need of the child

Learning via play and practice in different settings

Learning data and progress is recorded

Weekly supervision by Program Coordinators

Monthly progress meetings

Jumpstart Program

The Jumpstart Program is a 5-day (parents have the option to extend the time) intensive progressive Applied Behavior Analysis (ABA) therapy conducted by our best staff and a Behavioral Consultant. This is a powerful opportunity for families to make rapid progress with their child in a short time frame. We will be able to identify critical learning areas, examine trouble areas and provide intensive focus to address these issues. Available in English or Mandarin.

1. Initial Assessment

AP provides a free consultation. Through personal meeting or over the phone, this is done to know more about the child's current development and needs. Parents can discuss with our Behavioral Consultant the program details, expectations and seek effective solutions.

2. Curricular Planning

Based on the child's skills and developmental needs, AP will develop goal-oriented curriculum and behavior plans with specific objectives and goals. Areas included are learning readiness, language, communication, play, social, cognition, behavior, and daily independence.

3. Ongoing Assessment

The Behavioral Consultant will observe the child's progress and will provide prompt assessment and analysis of the problems and areas of need. This will enable the parents to know the child's situation clearly.

Jumpstart is perfect for:

- A** Families that are new to ABA and would like to experience what AP is able to achieve in a short time frame. This can enable better decisions about joining longer term under local services.
- B** Families that are experiencing some specific difficulty and would like to solve problems and focus on a specific area to enable more and rapid progress.
- C** Families who cannot stay in Hong Kong for an extensive period and wish to experience ABA treatment.
- D** Families starting a local services and/or overseas consultation and want a boost to start the program in the most optimal way.

Behavioral Consultant provides daily direct one-on-one ABA therapy

36 Hours

of intensive ABA treatment

Highly Individualized Treatment Plan

With specific objectives and goals

Additional time and resources

Including staff, reinforcers, materials, etc

Overseas Senior Therapist Program

With the presence of several Autism Partnership offices, this is a specialized program conducted by an overseas senior therapist with many years of experience in dealing with a child with autism.

The considerable and comprehensive expertise promotes efficient learning opportunity and progress. Therapy is conducted 6 hours per day throughout the week.

Morning Sessions	Afternoon Sessions
9am to 12nn	1pm to 4pm

-  Regular progress meeting
-  Parent training and support
-  Overseas therapists
-  Managed by a consultant
-  Therapy session can occur in any place (center, home, school, community)

International Consultation

With more than 20 years of international experience, Autism Partnership has been providing high quality intensive ABA services to families. AP has designed a comprehensive consultancy service that enables families to receive services where they live.

Assessment and evaluation of your child's strengths and weaknesses.

Identification of priority goals and objectives.

Development of a comprehensive treatment plan to address the individual areas of need.

Regular review and assessment of goals and objectives.

Problem solving and program adjustment to ensure progress.

Staff training and support.

Extra support in the form of emails, phone calls, online conference and video review.

Model A Autism Partnership Therapist

Families may choose to have our experienced therapists to carry out the intervention at their home.

Regular consultation is also provided by our Behavioral Consultants.

1. Same level of expertise as you would receive in our offices.
2. No additional time wasted in training new staff.
3. Stable and secured team members.
4. No scheduling or human responsibilities.

Model B Local staff

Families may choose to hire staff on their own and AP can assist with the hiring, selection and on-going training of the staff. AP can also conduct regular visits for staff training, curricular development and assessment.

Family's preference to train their own staff would be classified under the Train the Trainer (TTT) program.

1. Local staff may be cheaper to hire, lowering the cost of the treatment.
2. Families do not have to relocate to receive services.
3. Available in English / Mandarin.
